

The Nevada HCUP State Inpatient Databases (SID) for 2008 contain problems with the coding of the principal diagnosis on less than 1 percent of the discharges. The principal diagnosis was accidentally replaced by one of the secondary diagnoses.

The problem was identified by the HCUP Partner in Nevada. The Partner provided corrected source data file. The 2008 NV SID were recreated in November 2010 with the updated source data.

We apologize for any inconvenience this may cause your organization. If you had previously purchased the 2008 NV SID and would like a copy of the updated file, please contact the HCUP Central Distributor (866-556-4287 toll-free or HCUPDistributor@AHRQ.gov).

Sincerely,

The HCUP Central Distributor Team
